Innovative Anti-Pollution Green Buffer in Natural Park at Ramona Gardens Will Use Native Habitat to Improve Air Quality

CCS' continues our 'out-of-the-box' approach to solving environmental problems! The plans for this 'Nature in the City' park feature an innovative [Anti-Pollution Green Buffer](#), which integrates native habitat, hills and a sound wall to optimize the uptake of pollutants. The plan includes recycling urban runoff for irrigation. To learn more, [click here](#)

**P.S. Stay tuned for publication of the concept plan for the
Natural Park at Ramona Gardens this summer!**
